

MONITOR – MIND MURMUR VOLUNTEER – approx 3.5 HOURS

Installation monitors are the backbone of Mind Murmur. Without you, the art installation cannot operate!

What Monitors Do:

- Greet meditators and Burners, explain how the installation works.
- Calibrate EEG headset to each meditator.
- Operate the generator: start, stop, add gas.
- Start and stop video projectors using a remote control.
- Start and stop a PC laptop and iPhone, start and close software.
- You might need to adjust minor software settings.

Two monitors are on each shift, for porta potty breaks... and snuggles. We'll have one Mind Murmur Crew Member there with you, to troubleshoot technical issues.

Training Session:

Before your first Monitor shift, consider attending a group training session at the Mind Murmur pyramid. We'll teach you everything you need to know!

Sunday August 26, 7:00-7:45 pm @ Mind Murmur

Monday August 27, 7:00-7:45 pm @ Mind Murmur

SIGN UP FOR A MONITOR SHIFT HERE: <https://doodle.com/poll/m75wwm25i54nafy9>

Mind Meditation Mixology – You are Invited!

Special Event... Join us for a brief group mediation, and consciousness discussions led by PhD brain scientists. Followed by DJs and custom-crafted cocktails (think elderflowers and rosemary).

Wednesday Aug 29, 8-10pm, at the Mind Murmur pyramid.
